Step 1: Do you have an access code?

An access code is a 6-part code. Here is an example of what an access code looks like:

QUAYS-THUMB-PIPES-TRAWL-NOMAD-KNEAD

NOTE: *Your text/package may have included a MasteringPhysics access code, or you may have purchased a code separately at your bookstore. If not, you can purchase access online at www.masteringphysics.com.*

Step 1: Do you have an access code?

A student access code is a printed code supplied inside the MasteringPhysics Student Access Kit (and sometimes by other means.) If your instructor requires you to use MasteringPhysics, a student access kit may have been included with the purchase of your new textbook.

Yes, I have an access code. No, I need to purchase access online now.

Example

SIMPLE-FRILL-TONLE-WEIRS-CHOIR-FLEES

your access code may look like this

Continue »

If you DO have an access code,
click **Yes** and **Continue**

SKIP THIS SLIDE if you already have an access code.

Register for MasteringPhysics™

Step 1: Do you have an access code?

A student access code is a printed code supplied inside the MasteringPhysics Student Access Kit (and sometimes by other means.) If your instructor requires you to use MasteringPhysics, a student access kit may have been included with the purchase of your new textbook.

Example

SIMPLE-FRILL-TONLE-WEIRS-CHOIR-FLEES

your access code may look like this

- Yes, I have an access code. No, I need to purchase access online now.

Step 2: Tell us which book you're using:

Scroll & click to select

Giancoli, Physics: Principles with Applications, 6e

Knight, Physics for Scientists and Engineers, 1e

Knight, Physics for Scientists and Engineers, 2e

Knight/Jones College Ph

If you DO NOT have an access code, click **No**, then select the book you are using.

SKIP THIS SLIDE if you already have an access code.

Yes, I have an access code. No, I need to purchase access online now.

your access code may look like this

Step 2: Tell us which book you're using:

Scroll & click to select:

In U.S. & Canada | [Outside U.S. & Canada](#)

You selected:

Giancoli, Physics for Scientists and Engineers with Modern Physics, 4e

Step 3: eText Options

Would you also like to buy access to the [eText](#) (online version)?

Yes, please include the eText with my MasteringPhysics subscription. (Price will be shown before purchase.)

No, thanks.

eText Options:

Access codes packaged with a new text include eText access. You can purchase access to the eText at this time or you can upgrade to the eText later.

Price will be shown before purchase.

Welcome! Chris Pearson

Mastering presents homework items assigned by your instructor and *works with you* to answer them. Homework items typically have an introduction, possibly figures, and one or more parts for you to answer.

Part A Part B

Type of help offered

- Mastering tells you immediately whether or not your answers are correct. Usually, you will have multiple chances to arrive at the correct answer. Your instructor will determine how many tries you have available.
- In many items, hints are available to help you if you get stuck. If you don't need the hints to solve the problem, you can still use them for review later on.
- If you submit an incorrect answer, Mastering often responds with specific, helpful feedback.
- Mastering is forgiving of many typos and formatting mistakes. If it can't figure out what you entered, it will let you know and give you another chance.

These exercises were chosen specifically to lead you through the key features of Mastering and are not intended to test your knowledge of any specific subject material. Therefore, on this item you will not be penalized for using hints and submitting incorrect answers. In fact, you should submit incorrect answers and use the hints to see what happens!

Part A

How many squares are in this 2×2 grid ([Part A figure](#)) ? Note that the figure link lets you know that a figure goes along with this part. This figure is available to the left.

Enter your answer as a number in the box below and then submit your answer by clicking Submit.

Number of squares =

[submit](#) [my answers](#) [give up](#) [review part](#)

Grading

See the help file available by clicking the **Help** tab in the top right corner, if you want to know more about how grading works. Here is

Read the question and answer all parts as instructed.

The **ActivPhysics Study Area** is a comprehensive self-study resource which contains over **450 applets**, text explanations, videos and **over 1000 self-testing questions with answers**.
